Concept – planning – construction – exhibition	
Index	643

I

Geographical and historical orientation

Jutish peninsula– Schleswig isthmus	16
West coast – entering the Rivers Eider and Treene	20
Transit route on the ridge of the geest	27
East coast – entrance to the Schlei fjord	30
Settlement site at Haddebyer Noor	34

Archaeological investigations

On the history of research at the Oldenburg	35
Archaeological excavations	42
Fieldwork – method – documentation.....	44
Recording of surface finds	72
Impact of wind and weather.....	81

II

Settlement at Haddebyer Noor

Early traces of settlement	86
Tools – building material – constructions	88
Reinforcement of the stream bank	106
Paving the paths	110
House entrances	116
Pit houses – log houses	120
Split-plank house – house with foundation beams	122
Wattle and daub house – Hedeby house	124
Man and creature under one roof	130
Hearths – ovens	132
Pavement – chest – trough	134
Occupation layers in the profile wall	135
Roof constructions	136
Building a house in the confines of the plot	138
Types of houses	140
‘Fire! Fire ...!’	141
Types of wells – well construction	144
Topography – stratigraphy – chronology	152
Semicircular rampart as a stronghold	156
Dendrochronology	160
Everything in one view – settlement detail	165
Reconstructions	168

III

Inhabitants

Burials	172
Men	178
Literacy	180
Cult	184
Clothing	190
Dress accessories	197
Footwear	214

IV

The household and daily life

Strike-a-lights – lamps – furnishings	222
Knives – sheaths – whetstones	228
Pottery vessels	234
Wooden vessels and spoons	246
Bag handles – varia from bark and wood	264
Soapstone vessels – suspension devices	268
Metal vessels – handle attachments – glass vessels	274
The house – everything under one roof	277
Hygiene – pests	282
Perforated discs – games and music	286
Milling and baking – buttering – slaughtering	290
Archäologisch-Zoologische Arbeitsgruppe (AZA)	298
Domestic animals – game	300
Fish – shellfish – fishing	310
Fruitstones – hazelnuts	318
Diet – biotope	320

V

Production

Production of pottery vessels	324
Fabrication of wooden objects	326
Processing of antler and bone	342
Spinning – weaving – sewing	356
Cordage – nets	370
Manufacture of footwear – processing of leather	372
Iron processing – from ingots to products	378
Abrasives – whetstones – grindstones	402
Millstones – import and adjustment	412
Metal casting – ingots – crucibles – moulds	414
Find of stamp models from the harbour	426
Filigree decoration and granulation technique	430
Gold-working and silver inlays	434
Locks – keys	436
Processing of amber, jet and glass	447
Ornamentation on objects of daily use	460
Orientation and resolving of pictorial motifs	466
Development of the Scandinavian animal style	467

VI

Harbour and ships

Discovering a wreck	470
Recovering ships – investigating the harbour	478
Ships – rolling stock	492
Piers	516
The Archäologische Zentralwerkstätten (AZW)	522

VII

Trade

Axle and wheel – overland transport	534
Local trade with the surrounding area	538
Imported pottery.....	540
Ring pins – dress accessories or trade goods?	544
Origin of the soapstone material	545
Metal ingots as semi-finished products	546
Barrels of coniferous wood in secondary use	547
Cut stone beads – objects of long-distance trade	548
Traces of Roman culture	550
Measures – weights	552
Coins – coin brooches – seals	556
Protected harbour as a trading centre	562
Travel routes – ship losses – wind and weather	564

VIII

Armament and fortification

Longbow – arrows	568
Thrusting weapons – shield bosses	572
Swords from graves and harbour	574
Battle axe – axe sheaths	579
Spurs – horseshoes – caltrops	580
Bridles – stirrups	582
Armament and passage of arms	584
The Danevirke	587

Society and urbanisation	600
